

**“ A PASSIONATE APPEAL TO ESTEEMED PARENTS
YOU HAVE A ROLE IN THIS PANDEMIC ”**

Iqbal Institute of Technology and Management (IITM) where your ward is studying is a private Institution, which does not receive any financial assistance, grants and aid from the Government or donations from any other agency and hence all its expenses are met by the Institution alone from its single source of income, i.e., "THE TUITION FEE" of students.

The fee structure of the courses fixed by University of Kashmir with whom IITM is affiliated is less as compared to other colleges outside J&K. In addition, the number of students enrolled in various courses at IITM is not huge. These two important revenue generating parameters being low, and coupled with political and pandemic lockdown has again found IITM in acute financial hardships and therefore the salaries of the employees usually get deferred or are paid by seeking loan from its sister organizations.

Now as all of us know that due to political lockdown coupled with the Covid19 outbreak all the educational Institutions are closed from the last ten months, and students are obviously unable to attend the Institution.

But immediately after lock down, the faculty of IITM reached out to students and facilitated them with the study material followed by the interaction using WhatsApp. This methodology was further promoted by conducting online classes for students on Zoom Application. This practice was highly acknowledged by the students, and shall continue till the IITM reopens.

Respected Parents, the whole staff of IITM is working hard, particularly faculty for betterment of its students and they have conducted lectures for these entire months through virtual learning. Currently IITM is only able to pay the faculty half of the salary in previous months and even no salary for past one month obviously because of the acute financial crunch. Now parents have a role to play in these difficult times by paying the balance fees of their wards without any further delay. You will agree that this will help IITM to continue its financial cycle and shall enable us to pay its employees at least half of the salary, who in turn can meet their day to day expenses.

We are confident that esteemed parents will come forward and take out IITM of this difficult situation and will cooperate with us. InshaAllah.

Thank You.

Management

Iqbal Institute of Technology and Management (IITM)
Laloo Sheshgaribagh Hyderpora, Srinagar
