

ATTENTION STUDENTS

All the Students of IITM enrolled in any of the Courses (UG/PG) are informed through this notice that their internal assessment shall be conducted very soon. Due to the prevailing lock down a temporary change in the format shall be observed and hence the internal assessment shall be applicable to all the courses.

As per the guidelines of Kashmir University the internal assessment shall encompass various components like, Assignments/ Case Studies, VIVA (online) and attendance during the online classes. Hence it is imperative and beneficial for the students to maintain their attendance during online classes, and login with their Name and Roll No. and NOT with the device name. Further, the Head of departments shall issue the required regulations pertaining to internal assessment very soon.

Dear Students, since the lock down was imposed and educational Institutions were spontaneously closed, all the faculty members of IITM are actively engaged in facilitating the students of Computer Science and Management Studies with study material followed by Interactive session of Questions and Answers online. This methodology was further taken a step ahead by introducing online classes on Zoom etc. which built more comprehension on the subject matter and contentment to the students.

The online classes are conducted regularly and a good number of students are attending these sessions, but some students are still away from this advantage which is very unfortunate, but I urge all the students to derive maximum benefit from this sincere endeavor of IITM.
